

f y A A A A A

y

七 A Δ Δ 十 A Δ A 十 七 A Δ A Δ

The sequence consists of 18 geometric figures arranged in two rows of 9. The figures are variations of triangles and trapezoids with internal lines and dots. The sequence follows a repeating pattern of 3 figures, with the last figure being a variation of the first.

The sequence of 12 diagrams illustrates the construction of the uppercase letter 'A':

- Diagram 1: A triangle with a circle at its top vertex.
- Diagram 2: A circle is added at the bottom-left vertex of the triangle.
- Diagram 3: A circle is added at the bottom-right vertex of the triangle.
- Diagram 4: The triangle is removed, leaving three separate circles at the vertices of the original triangle.
- Diagram 5: The circles are moved to form the left and right strokes of the letter 'A'.
- Diagram 6: The circles are moved to form the top and bottom strokes of the letter 'A'.
- Diagram 7: The circles are moved to form the left and right strokes of the letter 'A'.
- Diagram 8: The circles are moved to form the top and bottom strokes of the letter 'A'.
- Diagram 9: The circles are moved to form the left and right strokes of the letter 'A'.
- Diagram 10: The circles are moved to form the top and bottom strokes of the letter 'A'.
- Diagram 11: The circles are moved to form the left and right strokes of the letter 'A'.
- Diagram 12: The final uppercase letter 'A' is formed.

$\frac{1}{2}A \perp \frac{1}{2}A \triangle \triangle \frac{1}{2}A$ $\frac{1}{2}A \perp \frac{1}{2}A \triangle$ $\frac{1}{2}A$ $\triangle A \perp \triangle A \triangle A \triangle A$ $\frac{1}{2}A \triangle \triangle A \triangle \triangle \frac{1}{2}A$ $\frac{1}{2}A$

7. A triangle with a dot at its base, a triangle with a dot at its top, and a triangle with a dot at its left side.

[illegible][illegible][illegible][illegible]

[illegible][illegible][illegible][illegible]

The diagrams illustrate the steps of the Euclidean algorithm for finding the GCD of 12 and 18. The sequence of diagrams is as follows:

- Diagram 1: A horizontal line with a point labeled '12' and a point labeled '18'.
- Diagram 2: A horizontal line with a point labeled '12' and a point labeled '18'.
- Diagram 3: A horizontal line with a point labeled '12' and a point labeled '18'.
- Diagram 4: A horizontal line with a point labeled '12' and a point labeled '18'.
- Diagram 5: A horizontal line with a point labeled '12' and a point labeled '18'.
- Diagram 6: A horizontal line with a point labeled '12' and a point labeled '18'.
- Diagram 7: A horizontal line with a point labeled '12' and a point labeled '18'.
- Diagram 8: A horizontal line with a point labeled '12' and a point labeled '18'.
- Diagram 9: A horizontal line with a point labeled '12' and a point labeled '18'.
- Diagram 10: A horizontal line with a point labeled '12' and a point labeled '18'.
- Diagram 11: A horizontal line with a point labeled '12' and a point labeled '18'.
- Diagram 12: A horizontal line with a point labeled '12' and a point labeled '18'.
- Diagram 13: A horizontal line with a point labeled '12' and a point labeled '18'.
- Diagram 14: A horizontal line with a point labeled '12' and a point labeled '18'.
- Diagram 15: A horizontal line with a point labeled '12' and a point labeled '18'.
